

Participate in brain research on high functioning autism!

ATTENTION: PARENTS OF CHILDREN AGES 8 TO 12

We are recruiting children to participate in a research study to learn if there are differences between the brain's connections in children *with* and *without* autism spectrum disorders (ASDs)

- WHO:** Girls and boys with ASDs and children who do not have ASDs to participate as “comparison subjects”
- WHAT:** Eligibility screening via parent phone interview, questionnaires completed by parent and school teachers, 2 days of computer games, paper & pencil tasks and an Electroencephalogram (EEG) test, IQ testing and report. Will require about 1 ½ days or 12 hours to complete all activities.
- WHERE:** Kennedy Krieger Institute
- BENEFIT:** There is no significant risk or direct medical benefit for participating in this study.
- COMPENSATION:** \$25.00 gift certificate
- CONTACT:** Michael Levine: (443) 923-4137
