

Participate in brain research on high functioning autism!

ATTENTION: PARENTS OF CHILDREN AGES 8 TO 12

We are recruiting children to participate in an MRI research study to learn if there are differences between the brain's structure and its function in children *with* and *without* autism spectrum disorders

- WHO:** Girls and boys with ASDs or children who do not have ASDs to participate as "comparison subjects"
- WHAT:** Eligibility screening via parent phone interview, 2 days of computer games, paper & pencil tasks, and a Magnetic Resonance Imaging (MRI) scan of the brain. Free IQ testing and report, and a picture of your brain.
- WHERE:** Kennedy Krieger Institute & Johns Hopkins Hospital
- BENEFIT:** There is no significant risk or direct medical benefit for participating in this study.
- COMPENSATION:** \$100.00
- CONTACT:** Carrie Nettles: (443) 923-9263
