Building Partnerships. Changing Lives.

Do you need help obtaining special education and related services for your child?

Do you need representation to appeal an SSI denial?

Our Program

Project HEAL (Health, Education, Advocacy, and Law) is a community-based program of the Maryland Center for Developmental Disabilities at Kennedy Krieger Institute and is Maryland's only comprehensive medical-legal partnership. Project HEAL's attorneys collaborate with Kennedy Krieger's faculty members, staff members and trainees to provide advocacy and legal services (e.g., representation and limited representation) for children with intellectual and developmental disabilities who receive clinical services at Kennedy Krieger, and their families, regardless of their immigration status.

How can Project HEAL help me?

You may have challenges in your day-to-day life that affect your child's health and well-being. Project HEAL's attorneys provide the following advocacy and legal services:

- **Representation:** In special education matters, Supplemental Security Income appeals and simple family law matters
- **Limited representation:** Brief advice, document review, referrals, information and resources
- **Case consultations:** Advice to Kennedy Krieger faculty members, staff members and trainees
- **Pro bono referrals:** To Baker Donelson, Ballard Spahr LLP, DLA Piper, Offit Kurman and nonprofit legal service organizations
- **Professional training:** For Kennedy Krieger faculty members, staff members and trainees
- **Community training:** For children, families, service providers, law firms, school systems and organizations

“Project HEAL secured additional evaluations through the school system and effectively advocated for a more appropriate educational program and placement for my son.”
